Days: Mo Tu We Th Fr

Arts and Handicraft: Performance

Complete Merit Badges Earned:
- Public Speaking

Partial Merit Badges Earned:
- Theater
- Music

This program uses skills from each day to build up to larger/more technical projects by the end of the week. Please communicate to Scouts and Leaders that missing class/arriving late will make it difficult for staff to accommodate program.

Scouts will discover and learn what it takes to master the art of performance and find techniques that help them to communicate as leaders, followers and artists.

"Communication focuses on how people use messages to generate meanings within and across various contexts, cultures, channels, and media. The field of communication promotes the effective and ethical practice of human communication."

This Merit Badge Group teaches:

- Why so many people communicate through art and how it's so important
- The composing of feelings and ideas and ways to relay them to others
- Tools and tricks for a successful public presentation
- How to lead a group of people in a performance
- How live performances shape and define our culture through history
- The careers and hobbies of performance art

Maximum number of participants: 10

C.A.W.N.S: Friendly Fishing

Complete Merit Badges Earned:

- Fishing
- Fly Fishing

Partial Merit Badges Earned:

More than just a pass-time, fishing connects us with the wildlife with which we share our planet.

Enjoying this hobby while maintaining the proper balance and the dynamics that go with it requires attention and respect for the water. We use this stewardship tool to help minimize or eradicate the possibility of extinction of not only marine life, but of any given species.

While this activity is relaxing and fun, it can become a technical sport or even necessary for living off the land.

"Every Scout ought to be able to fish in order to get food for himself. A tenderfoot [beginner] who starved on the bank of a river full of fish would look very silly, yet it might happen to one who had never learned to catch fish."

Look around at the Scouts in your unit, the members of your sports teams, and the kids in your class - you will see that each person has their own personalities, distinct interests and ideas, different physical features, and different strengths and needs.

The field of public health deals with maintaining and monitoring the health of communities, and with the detection, cure, and prevention of health risks and diseases. Although public health is generally seen as a community-oriented service, it actually starts with the individual. From a single individual to the family unit to the smallest isolated rural town to the worldwide global community, one person can influence the health of many.

Climbing is a sport that can require tremendous muscular strength; unless you master techniques of mental toughness and have the willingness to practice hard to move upward. The adventure of climbing involves knowledge of knots and the ability to understand the physics of a load bearing structure. In this program block Scouts will:
- Earn the climbing merit badge, diving into technique and applications of the sport
- make their way through our Aerial Adventure Park solving climbing and teamwork puzzles along the way
- build and ascend various structures using knowledge of knots and physics

Wehinahpay Mountain Camp: Summer Adventure 2023: Session 1 at Wehinahpay Mountain Camp

In learning about inventing, robotics and space exploration, Scouts study how their favorite genre of entertainment could be a future career.

Space is mysterious. Each time we send explorers into space, we learn something we didn't know before. We discover a little more of what is there. Scouts will come to understand the things we already know about the stars and the many methods of learning what we don't.

Houston we've got a problem! Scouts will have to learn how robots function in the field to aid us in our mission, including how they move (actuators), sense the environment (sensors), and how robots understand what to do (programming); inventing a tool to solve a problem in zero gravity? Now that's something for the books!

Automotive Maintenance

Modern automobiles are important to many aspects of American life. Those who service automobiles must understand each principle, and how these principles interact to provide smooth, efficient performance. Owners of cars also benefit by understanding how their vehicles operate. This enables them to understand why certain periodic maintenance is required to keep their vehicles in tip-top shape.

Basketry

Basketry is a handy skill for a Scout. A basket can be a sturdy companion on campouts, carrying clothes snugly and efficiently, holding potatoes and corn for roasting over a campfire, or carrying the day's fishing catch back to camp for dinner. Baskets and basket-weaving projects also make great gifts for family and friends.

Prerequisites: Adding this to an individual's registration helps us prepare for materials needed each week. As we offer this every day in our Crafts Center during Program Wander, Scouts may come in multiple days, stay for a full afternoon or finish a partial from before! Its flexible and paced individually per scout.

Rifle Shooting (Option A - Modern Cartridge)

Unless a rifle is handled incorrectly or recklessly, it is not dangerous. A rifle, like any other precision instrument, is manufactured to perform a specific task and can do so at no risk to the user or others. By earning this badge, Scouts can develop their shooting skills while learning safe practices.

Robotics

Earning the Robotics merit badge requires a Scout to understand how robots move (actuators), sense the environment (sensors), and understand what to do (programming); he should demonstrate robot design in building a robot. You should help ensure that the Scout has sufficiently explored the field of robotics to understand what it is about, and to discover whether this may be a field of interest for him as a career.
